

PISc 310
Paper Grades Form

Evaluator's name _____

Having evaluated the papers as a peer evaluator, your job is also to give a grade to each paper. Generally, the scale is as follows:

A	A-	B+	B	B-	C+	C	C-	D+	D	D-	E
Excellent			Good			Satisfactory			Minimum Passing		Unacceptable

More specifically, you should examine the Final Paper requirements handout (also on the web) and see what features of a 'C' paper are found, and what features of an 'A' paper are found. If you wish, you may give a numeric score instead (100 point scale).

Turn in this form to the instructor on **7 April 2011** (at the beginning of class). **Do not make a copy of this form for your peers. Do not discuss the grades you assign with your peers.** The grades you assign will influence but not constrain the instructor's grades.

Author's name: _____

Grade: _____

Justification and support for grade given:
